This image shows a vertical strip of a document page. On the left side, there is a dark, heavily textured vertical band, likely representing the binding or a heavily stained edge of the paper. To the right of this band, the page is a light, off-white color, appearing mostly blank but with some faint, illegible markings and a slightly grainy texture. The overall appearance is that of a scan of a physical document, possibly a book or a folder, where the left edge is obscured by the binding material.

(By Chas. G. Jenness of the Rochester (N. H.) Courier)

other canoes were sailing aimlessly about above the camps on the wings of the wind, his long anchors held. But one of the larger boats lay in the center of the guide's brand new canoe, completely demoralizing it.

But we were the witnesses of no such displays of the handwork of the freedred Indians. After a day and a half of nine days the beautiful little white-bordered lake staged but few white-capped waves to add to the smoothness of the water not shed little rocks that almost completely obliterated the shoreward from low to high water mark. And these stones, mostly flat, were extremely fascinating. Some of them were almost as white as snow, others yellow as a lemon; here was one as rich, darker color, or, perhaps, one that was variegated.

handling, the latter was the body of the fish. That evening he took the trout from the "Now hold quiet." He spoke very lightly. "I will try not to hurt you. That's out, now go back and enjoy, self." Lucky that! For a moment only held him his water, his head pointing out into the depths. For an instant he raised, and then all but motionless, he added to his pondering "I will try not to hurt you."

Then, first with a quiver followed with a living streak that lit up through the water, he was out of sight.

A real, true sportsman was the water. The trout was not needed in the kitchen. Other fishermen had brought them. They were served—fried, broiled, or even in chowder—as often as any

EAST OTISFIELD

Otisfield's Third Annual Fair—Benjamin Fogg from California Visited Henry Rugg.

Otisfield's third annual fair was held at East Otisfield, October 6th, after being put over from October 2nd, on account of rain. This was also a rainy day, but there was a good crowd. The forenoon was passed in social chat with friends and patronizing the booths of "Cats" and "drinks" with music by the Poland Band to brighten up the disappointed moment of the rainy day. A bountiful dinner was served at noon, such as the women of East Otisfield are noted for getting up. Horse pulling and pulling by steers was quite exciting, but the greatest excitement was the horse racing. Ralph Dyer, Carl Fickett, and David Bean, all on horseback. Eastman Bean with the little "broncho" won the prize. Howard Fickett got first prize for horse pulling and Lewis Bean, 2nd. Francis Pearson and Everett Bean pulled their steers but the steers thought it too rainy and slippery to show their best.

The large hall was well filled with products from the farms and homes. It was in all a splendid exhibit. There were many beautiful rugs, both hooked and braided, on the walls of the hall, very noticeable was one hooked, the design being the church building which will be the old one or first one built there. It was very artistically worked, the picture leading to it was very clearly drawn. Exhibited by Lydia Spurr, wife of Meredith Spurr of many years ago. The judges on fancy work were Mrs. Mabel Wilbur and Marguerite Dyer. Prizes were awarded to Mrs. Lydia Spurr on rugs, 1st, 2nd, and 3rd. The fancy work was beautiful. Mrs. Lena Welch, 1st and 1st 2nd; Mrs. Ola Lamb, 1st, 2nd, 3rd; Lucille Vining, 2nd; Eva Bean, 1st, 2nd, 3rd; Marguerite Dyer, 1st, 2nd, 3rd; Doris Culbert, 1st, 2nd; Hazel Oult, 1st, 2nd; Mrs. Curtis 1st 2nd; Mrs. Kalamazoo parlor stove, 1st prize on a beautiful Jerusalem fig tree. Mrs. Lena Welch had a fine exhibit of various kinds of work done by her pupils in East Otisfield school.

John A. Jilson got first prize on canned goods, Mrs. Lillian Severy 2nd. Vegetables: Ed Lamb, 1st, 2nd; H. M. Stone 1st; Frank Bean 2nd, 1st; Mrs. Hamal 3rd, 1st, 2nd, 3rd; Horatio Pense, 1st on corn; H. Fickett, 1st and 2nd. Potatoes: 1st, 2nd, 3rd; E. Lamb, 1st, 2nd, 3rd; Edwin Lamb, 1st on vegetables; M. C. Kemp, 1st on cauliflower; P. C. Greenleaf 1st on potatoes; Charles Butler, 1st on cauliflower; Phil Wadsworth, 1st on cauliflower; Rock, 1st, 2nd, 3rd; Joseph Butler, 1st, 2nd, 3rd; 3rd on pullets; 1st, 2nd, 3rd on chickens; 1st, 2nd, 3rd on ducks and guinea fow; E. B. Greenleaf, poultry; R. I. Red, 1st on cock and 1st on fowls; Ellis Stone, 1st on rabbit. Francis Pease got 1st and 2nd on steers.

The dance in the evening was well attended and closed up a fairly profitable fair, financially, considering the last day appointed was rainy, and the last day also rainy.

Benjamin Fogg of San Francisco, Calif. spent the week end with Henry Rugg and family. Mr. Fogg is visiting sisters in Norway.

Mr. and Mrs. Wilfred Southworth from Auburn took tea and spent last Wednesday evening with their aunt, Mrs. Hattie Greenleaf.

Mrs. Jessie Leeder is gaining slowly, she is now able to run her car. She spent last Wednesday with Mrs. P. C. Greenleaf.

Unfair to the Fair

At 5:15 this morning

The skies were gray, gray

I wondered would it help things

And just then they broke away

Showing some bright, clear blue

Enough for a Dutchman's breeches

If we saved on place or time

And then the sun shone brightly

For half an hour or so

Limning each little cloudlet

With a silver rod golden glow

But the thunder clouds rolled westward

Being pulled up thick and fast

And the glorious sun was hid

Had to be a thing of the past

We were very sorry

We loved to play that day

But we have to take things as they come

And we must not forget to pray.

SUCCESSFULLY CLOSED SEASON

Water is not far distant! John Walker of Poland Springs has been

arrived in town. For 35 years past he has done it and the cold spell has never yet failed to follow. Probably no exception this year.

John reports a big season at Poland Springs just closing. Folks tumbled over themselves to get there and drink spring water, play golf and take other things, the charming season. Pay big money and seem pleased over it. Funny place in the world world. That's the way John Walker thinks and talks and we guess he is right.

John now goes into "retirement" at the Harrison. Bats with his sister, Mrs. David Knapp, of Etna, and lives in the Harrison Young Men's Club Rooms when not at the Wearies' Paradise in Norway.

He and his good wife had three children, all favored by the Lord. The oldest, Mr. Charles L. Cragin is one of the leading physicians and surgeons of Portland. He is married and has an interesting family of several boys and girls.
Harriet E., the youngest, remains unmarried. For many years she taught in the Norway village schools. For some fifteen years past she has been employed in the Rockland, Mass. schools. She is one of the best instructors in the grade where she has taught so long. Miss Cragin is a very likable and charming lady.

WASHINGTON VISITS BOSTON

Guy Murock, son of Frank, the machinist, leaves with a copy of the Massachusetts Centinel, which was recently found in their house. It is a facsimile of the original, printed in Boston, Oct. 28, 1789, when the President, George Washington, visited that city. It has the program of the celebration and is a curiosity. Long s's are used and the two communications from the president are signed apparently in the handwriting of G. Washington, who addressed his remarks to "the inhabitants of the town of Boston." Joseph Willard, president of the University (Harvard, of Cambridge) is the spokesman and extends the invitation. The paper has three columns making an 8 1/2 x 13 1/2 inch page.
This copy was reproduced and issued by the Boston Daily Globe, April 29 and 30, 1889.

SAW BOWDOIN GAME, SATURDAY

They came from Attleboro, Mass., to hunt big game in this vicinity. Couldn't withstand the attraction of last Saturday's football game with the college team. They went and lost one excellent day for woods travel and game expectancy.

Their guide did not go, but rambled about in their camp and got birds, too. The party: A. A. French of the D. D. Makepeace Co., of the jewelry making city, with Dr. H. E. Clapp, Dr. E. Sweet, R. L. Gowan, S. W. Stone and Dr. E. E. Kent.

They were in at a game supper at the Beals Tavern last Friday evening. Big variety of menu—partridges, rabbit, woodcock, etc.—the best ever.

Mrs. George Hobbs Called to Massachusetts by Death of Brother—Everett Morse Captures Live Partridge.

With lowering skies and gentle rain Sunday was an ideal day to sit by an open fire, pop corn, eat rosy-cheeked apples and drink cider (what!) while dreaming of walls filling up as the bottom of many have seemingly dropped out, necessitating many to go to low lands for water, which is a "good smart distance" for those in need of it.

Mrs. George Hobbs was suddenly called to Massachusetts by the death of her brother.

Everett Morse captured a live partridge on his way home from the village, Saturday. A hawk chased it until it became bewildered.

Cedric Judkins and sons, Fred and Albert of Upton, were dining guests at E. T. Judkins', Saturday. Mr. Judkins took a large truck load of apples back with him from the orchards of Ned, Cox and Claude Haskell. He told of cold weather and frozen ground in Upton and we, on the hill top, looking down in the low lands, see the marks of Jack Frost who has not really visited here this fall.

Mr. Judkins picked a cup of fresh ripe blackberries from his bushes Friday, Oct. 15, and the flowers, dahlias, nasturtiums and gladioli, still in bloom, without special protection up to Oct. 18, the date these items were written.

Carl Austin's child, mentioned in last week's items as ill, has been taken to the C. M. G. Hospital for observation and treatment. We understand its condition has improved and she is to return home this week.

Mr. and Mrs. Horace Hussey have been entertaining guests from New York several days lately.

Have the Norway Advertiser sent you each week. Paper sent for any length of time paid for. Send today.

Lesson for October 24

JOSHUA, ISRAEL'S NEW LEADER

LESSON TEXT—Num. 27:18-20;
Joshua 1:1-3.

GOLDEN TEXT—Be strong and of a
good courage; be not afraid, neither be
dismayed; for the Lord thy God is
with thee whithersoever thou goest.

PRIMARY TOPIC—Joshua the New
Leader.
JUNIOR TOPIC—The Task of Joshua.
INTERMEDIATE AND SENIOR TOPIC—
The Secret of a Strong and Useful
Life.

YOUNG PEOPLE AND ADULT TOPIC—
Preparation for True Service.

The book of Joshua, from which our
lesson is taken, is a history of the
conquest of the promised land and its
division among the tribes of Israel. It
takes its name from its principal
character, Joshua.

I. Joshua, the New Leader of Israel
(Num. 27:18-20).

The people were not to be left in
doubt as to a leader when Moses
was gone. The leader was to be ap-
pointed and given recognition before
all the congregation.

During the wilderness journey Joshua
was Moses' minister and the cap-
tain of his army. When Moses was
denied the privilege of going over the
Jordan, Joshua was appointed to the
leadership of Israel. Moses, the rep-
resentative of the law, brought Israel
to the borders of Canaan. Joshua
was the man chosen to lead the people
into the place of rest. The name
"Joshua" has the same derivation as
the name "Jesus."

II. Joshua Commanded to Take
Charge (Josh. 1:2).

Moses was dead, but God's word
must go on, therefore God issued the
command for the new leader to as-
sume his duty.

III. God Renews His Promise to
Israel Concerning the Land (Josh.
1:3, 4).

This promise had been given to
Abraham and renewed to Isaac, Jacob
and Moses. It is now renewed to Is-
rael as they were about to enter upon
its possession. The borders of the
land were "from the wilderness and
the Lebanon even unto the great
river, the River Euphrates, all the
land of the Hittites, and, and, and,
great sea toward the going down of
the sun." The nearest this territory
was ever possessed was during the
reign of David and Solomon, though
not then fully realized. This land still
belongs to the Jews, and in God's own
time they shall possess it. Their pos-
session of this land was due entirely
to themselves. God promised them
that wherever their feet stood upon
the land it was theirs.

IV. God's Presence Promised (Josh.
1:5).

Joshua was entering upon a perilous
and difficult enterprise, but the Lord
said as He was with Moses, so He
would be with him. The difficulties
before him were:

1. The Jordan river (v. 2).

This river was not now at its flood
(Josh. 3:15), making it impossible for
armies to cross.

2. The people were living in walled
cities (Num. 13:28).

Notwithstanding this, God was ready
to insure success.

(1) "I will not fail thee, nor for-
sake thee" (v. 5).

(2) "There shall not any man be
able to stand before thee."

(3) "As I was with Moses, so I will
be with thee." Joshua had been with
Moses throughout their forty years' ex-
perience from the Egyptian deliv-
erance to the time of his death. Be-
cause he believed that God was with
his master, he was willing and ready
to cross the Jordan at its floodtide
and courageously meet the enemies on
the other side.

V. Conditions of Blessing in the
Land (Josh. 1:6-9).

1. "Be strong and of good courage"
(v. 6).

His mission was to go in and divide
the land among the tribes for an in-
heritance. It required strength and
courage to do this.

2. "Unwavering obedience to the
Word of God" (v. 7).

In a land of idolatry it required
much courage to be true to God. Pros-
perity and success were conditioned
upon unwavering obedience to God's
commands. In all his work he must
conform his life to the law of God.
To pass from the path outlined there-
in would bring disaster and ruin. In
order to accomplish this the law of
the Lord must be in his mouth con-
tinually. He was to meditate therein
day and night.

Joshua rendered prompt obedience,
he did not stop to cavil, but at once
gave order for the march. God made
the plan and gave the directions.

Culture

We hear so much nowadays about
"culture." Culture is all right when
you have something to cultivate. First
make sure that you have the divine
nature, then cultivate it.—D. L.
Moody.

Day and Evening

Day, like a weary pilgrim, had
reached the western gate of heaven,
and Evening stooped down to unlouse
the latches of his sandals shoon.—
Longfellow.

"BEARS" AND "BEARS"

"News from Maine has it that bear
hunting will be good this fall, but per-
haps it would be well to remind the hun-
ters that the game laws do not permit
the shooting of the Oxford bears."

The Boston Transcript is in error, in
the foregoing. The laws do permit the
shooting of the Oxford bears. The kind
that must not be shot are the Oxford
Bears—speckled with a capital B. We
the Oxford Bears, will forgive you this
time, but—don't do it again.

RUMFORD

John M. Harlow

John M. Harlow, for 25 years pro-
prietor of this locality, died
suddenly at work, Wednesday morning
Oct. 6. He was discovered by a little
girl in the neighborhood who thought the
man "died" and called a man who in-
vestigated and found Mr. Harlow dead at
his desk.

Mr. Harlow was born in Canton 75
years ago, the son of Fred and Reanna
(Barber) Harlow and lived in Dixfield be-
fore coming here 25 years ago. He was
a charter member of Canton I. O. O. F.
and will be well remembered by many as
a prompter at dances and also as a mu-
sician.

The only surviving relative is a son,
Fred M. Harlow of Biddeford. Mrs.
Harlow died about 19 years ago.

HEBRON—BEARCE NEIGHBORHOOD

fined to her room for a week with a bad
cold, is around the house again.

Everyone here is busy picking apples.
Frank Sturtevant and H. W. Beane of
the Indian Head Association have been
shipping several car loads recently.

Leon Whitman has several helping him
pick apples.

B. M. Pratt spent the week end here
recently.

The apples in this vicinity are for the
most part of very good quality.

FEED FOR DRY COWS

Dry cows will consume almost as much
roughage as those in milk. Silage may
well form the principal ingredient of the
ration. If given 25 to 40 pounds of silage
and about 5 to 6 pounds of clover,
cows, or alfalfa hay a day, the cows
will keep in good flesh and even make
some gain. Those in thin flesh should
receive in addition a small amount of
grain. Some grain during the dry period
is often advisable.

Overdoing?
Hurry, Worry and Overwork Bring
Heavy Strain.

MODERN life throws a heavy
burden on our bodily ma-
chinery. The eliminative organs, es-
pecially the kidneys, are apt to be-
come sluggish. Retention of excess
uric acid and other poisonous waste
often gives rise to a dull, languid
feeling and sometimes, toxic back-
aches and headaches. That the kid-
neys are not functioning perfectly is
often shown by burning or scanty
passage of secretions. More and
more people are learning to assist
their kidneys by the occasional use
of **Doan's Pills**—a stimulant di-
uretic. Ask your neighbor!
